Vol. II, No. 5

May 1958

APRIL BASE PRICE \$3.67

Dairy farmers will receive a base price of \$3.67 for April 1958 deliveries of Grade A base milk to handlers under the South Bend-LaPorte, Indiana, milk order. The base price is based upon a butterfat test of 3.5 percent, and will be adjusted by a differential of 6.9 cents for each one-tenth percent that tests vary above or below the 3.5 percent standard.

APRIL EXCESS PRICE \$2.96

April deliveries of Grade A excess milk to handlers under the South Bend-LaPorte, Indiana, milk order will be paid for at the rate of \$2.96 per hundredweight for 3.5 percent milk and adjusted by the same differential of 6.9 cents as is used for base milk. These minimum prices are subject to a 3 cent per hundredweight marketing service deduction, together with the authorized hauling charges and the 3 percent transportation tax on hauling. For comparative purposes, a uniform price of \$3.57 per hundredweight was computed, which is 5 cents less than the March uniform price and 16 cents less than the computed uniform price of a year ago. The base price is 17 cents less than a year ago, and the excess price 14 cents less.

PRODUCER RECEIPTS

Base Grade A producer pounds were 86.84 percent of the total producer receipts for the April delivery period, which is 1.5 percent higher than a year ago. Class I utilization of producer receipts was 66.76 percent of the total producer receipts and 76.88 percent of the total base milk. There was actually 3,442,984 pounds of base milk used in Class II and Class III. Daily herd production was the highest at 586 pounds since May of 1957, when it reached 600 pounds. Although daily production was only up a little over 4 percent from March deliveries, the daily herd production was up 41 pounds, which is 7.5 percent. This was mainly due to a loss in number of producers.

CLASS I SALES

Class I sales increased over March .66 of a percent, but are 1 percent lower than a year ago, on a daily basis. The only items under Class I classification that show gains over the sales statistics of a year ago are the fortified skim sales and sour cream sales. All of the other basic items are less than a year ago.
